# borrowed earth objects

from *Fragments* to *Masterpieces*

In this cyclic dance of

CREATION &

DESTRUCTION

into ourselves, we participate in the graceful churning of ageless transmutations.

ZERO WASTE INITIATIVE

Each Borrowed Earth Object is crafted from remnants and leftover pieces from our primary projects.

These fragments, which might otherwise be discarded, are carefully selected and meticulously transformed into sculptures, collectible designs, serve-ware, games, furniture and other accessories.

These objects serve as a tactile reminder of our connection to the earth, inviting us to pause, reflect, and appreciate the wonder of the natural world. Join our story at www.borrowedearthobjects.com

IMPERFECT

A STORY OF

TRANSFORMATION

SUSTAINABLY PACKAGED

Sourced from wooden pallets that once protected treasures in shipping containers, each box tells a story of transformation and renewal.

This wood, once a silent guardian of precious cargo, is now reborn, meticulously shaped to house our creations with the same care and respect we show to the earth.

By giving new life to these materials, we continue our commitment to sustainability, ensuring that even our packaging is a reflection of our values.

# ELEMENTAL

*by*

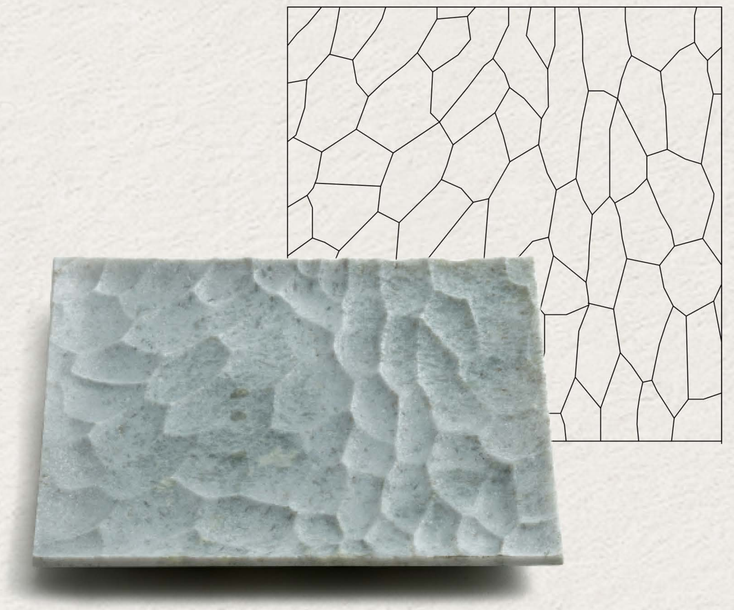

RUCHIKA GROVER

How much *grace* can you carry,

*even in moments of*

COMING UNDONE

ELEMENTAL

BY RUCHIKA GROVER

The first collection from Borrowed Earth Objects is the "*Elemental Collection*," an ode to gracefully coming undone.

Each piece in this collection is a testament to the beauty and natural corrosion of stone, embodying the essence of the elements.

These elements are not only reflected in the materials but also in the patterns, capturing the timeless dance of natural forces. The Elemental Collection serves as a bridge *between the natural world and our everyday lives*, reminding us of our place within the universe and our responsibility to care for it.

By incorporating these pieces into your home or workspace, you become part of the story of sustainability and mindful living, honoring the earth and its infinite wisdom.
